SUGAR SELLS AT 19 CENTS

Big Slump in Wholesale Market Causes Retailers to Suffer

Philadelphia, Aug. 17.—As a forerunner to a big drop in sugar which Philadelphia retail grocers declare to be imminent, the W. J. McCahan Sugar Refining Company announced yesterday a 2 1-2 cent reduction in the wholesale price. Saturday, according to officials of that company, the price of sugar sold by them was 21 cents a pound, less two per cent for cash. Yesterday it sold for 18 1-2 cents, less two per cent.

On the other hand, sugar that was purchased by retail distributors not many weeks ago for 25 and 26 cent a pound, is now being sold at 21 cents a pound.

In other words, according to Edwin Hanscom, of the firm of Hanscom Bros., retail grocers, "a sugar panic" is imminent in Philadelphia, and as a result, retail grocers of Philadelphia are now in the process of "swallowing a bitter pill."

"Several months ago" he said, "everyone was made to believe that sugar was scarce and the price was commensurate with the alleged scarcity. That was during the canning and preserving season.

SING SING PAPER SUSPENDS

Ossining, N. Y., Aug. 17.—Sing Sing Bulletin has suspended publication, according to a statement today by Warden Lawes.

The prison monthly magazine, edited by a former city editor of a New York city daily, had been pointed to by prison reformers as a masterpiece of convicts' journalism. It did not appear as per schedule today and no explanation was forthcoming as to the reason for its suspension.

The bulletin had reached a circulation of more than 5,000 copies, many of which were sent to foreign countries. Recently an official order limited the number of copies to $1,500.

AMERICANS IN LEAD

Antwerp, Aug. 17.—America's powerful and well balanced track and field team continued to gather honors in the second day of the seventh Olympiad.

It outclassed combinations of all other nations, but its members were not strong enough individually to win all the first place honors, particularly in the classic ancient pentathlon, in which the Finnish star, E. Lehtonen, proved to be the best all round athlete.

E. Knight's and Dyson's stationery store, Alexandria. STATE DEPARTMENT SILENT ON NOTE

Administration Probably Awaiting Word From Great Britain

JAPAN TO BE HEARD

U. S. Does Not Contemplate the Employment of Military or Naval Forces Around Russia.

Washington, Aug. 17.—Following the receipt of the note from France, approving President Wilson's Russian Polish policy, the State Department has embarked on what appears to be a campaign of silence, pending further developments.

The impression created in official quarters is that the Administration is awaiting some word from the other powers, including particularly Great Britain, before offering the much-sought-after definition of the promise contained in the Colby note to furnish "all available aid" for the protection of Poland from political and territorial serfdom to the Russian soviet.

It is obvious that what President Wilson most desires is an expression from the other powers pledging support for his policy against any dismemberment of Russia. Until such is forthcoming, it is patent to observers here that the United States will stand aloof. Although France apparently has come to scratch in the matter, the position of Great Britain and of Japan is still to be disclosed.

One thing appears to be definite—that the American Government is not contemplating, and has not at any stage contemplated seriously, the employment of any of its military or naval forces against Russia, either in its aid to Poland or to the anti-Bolshevik forces of General Wrangel in South Russia. Consequently, the assurance comes that the agitation among radical laborites in this country on that score is entirely uncalled for. In the first place, the Government realizes that it could take no such action without the expressed sanction of Congress, and the President has no intention of summoning Congress to Washington to get from it such authority.

POLES HURL BACK REDS FROM WARSAW

Bolshevik Are Attacking Last Remaining Defense of Capital to the North

GERMAN PLANES AID

Russian Forces Are Overrunning Polish Corridor With Avowed Object of Capturing Danzig

London, Aug. 17. — Two Polish counter-attacks have driven back the Bolshevik forces which were closing in on Warsaw, according to dispatches from the besieged city last night. The dispatches also declare that French assistance is rapidly nearing the Polish capital.

Polish hopes centered on the counter-offensive, as it is believed that if they are successful in checking the Red advance until he arrives the Russians may give up their plan of delaying the negotiations at Minsk and proceed to conclude peace.

French tanks now are supporting a Polish volunteer force. Disquieting reports of Red successes on the southern front have reached here. The soviet troops were on the outskirts of Thorn early today.

Despite assurance given in the House of Commons today that England would not go to war with Russia, one dispatch from Warsaw says. "A new Posen army, which is being created under British supervision is now 100,000 strong."

The issue at Minsk is likely to hinge on the question of Polish disarmament.

Paris, Aug. 17.—The Bolsheviks are attacking the fortress of Alexandrov, the last remaining defense to the north of Warsaw, after having captured yesterday the fortress of Novogeorgievsk.

Three violent converging attacks are under way against the capital: Along the Vistula near Alexandrov, along the Radzymin railway via Jabloja and due west of the city along the Siedlee high road, where the Reds are storming Novominsk and have reached Gadizsen.

Airplanes, piloted by German aviators, are reported to be bombing Parag, a suburb of Warsaw, and the Polish capital is believed to be doomed.

BITES PUPPY'S TAIL; LADY HAS HIM ARRESTED

Philadelphia, Pa., Aug. 17.—James Hallowell, 27 years old, was fined $13.50 today by Magistrate Dietz, on a charge of biting off a dog's tail.

Hallowell was arrested upon the complaint of Mrs. Florence Cody, said she saw the man pick up a small puppy from the sidewalk today and bite the yelping animal's tail off. She remonstrated with him, she asserted, but Hallowell insisted that from his knowledge of dogs he knew it should be done,

HaHowell's defense was that he was intoxicated and the magistrate was disposed to be leient, but agents of the Society to Prevent Cruelty to Animals pressed the charge and insisted that the man be fined or imprisoned.

WIVES WATCHED AS HUSBAND AVIATORS PLUNGED TO DEATH

Colfax, Iowa, Aug. 17.—Two aviators, Clyde Jones and "Pat" Willis, were killed here today when their airplane went into a nose dive and fell 800 feet to the earth. The wives of both men watched the flight and the fall.

The men were attempting to loop and rise out of a tail spin but mechanics, who saw the plane fall, said the fact that they were flying at a low altitude prevented their straightening out before they struck the ground.

Both men were about 28 years old. Both served as aviators during the war.

THE FIRST SAILING OF THE PILGRIMS

Three hundred years ago yesterday the band of brave and sturdy men and women whom Governor Bradford and Cotton Mather described as "pilgrims and strangers upon the earth," set sail from Southampton in the Speedwell and the Mayflower to found their colony in America.

The Speedwell had been bought for the enterprise and began her voyag at Delftshaven, Holland, taking the Pilgirms from that port. The investment in her proved unfortunate; she turned out to be unseaworthy and had to turn back after two trials. Thus came about that the Mayflower, the chartered ship, subsequently made the trip alone. Had the original plan of the Pilgrims been carried out the Speedwell would have shared with the Mayflower the interest universally attached to the little craft which made the passage.

As it was, the discouraging experience the adventurers underwent in their departure from England gave evidence of the qualities of heart and mind which later enabled them to withstand as an organization in the New World the hardships which took such heavy toll of their numbers. On the Speedwell and the Mayflower were 120 Pilgrims; after the Speedwell were abandoned 100 or 102 of them took passage in the Mayflower. The disheartening occurrences of August did not imtair the spirit of the party the firmness of purpose and the resoluteness of conduct which had been shown in their struggle for the religious principles in England and if Holland sustained them in this initial discouragement in their project to found a settlement to their liking.

They lived frugally they worked hard; they took their duties seriously Their fine qualities have been the heritage of a mighty nation, a birth right better for any people than power and wealth.

HARD WORK WINS ITS BOUNTIFUL CROP REWARD FOR AMERICA

Gather round, fellow urbanites and witness the inglorious fate of certain pessimists who have been haunting the nation with prophecies of deserted farms, dwindling crops, of a famine coming on the land. The pessimists have talked too loud. They have been overheard in their dire imaginings by the farmer. He has smiled and worked to insure plenty for all of us at home and a good margin to spare for the hungry peoples of less fortunate lands. Has the farmer succeeded in the face of all this pessimism? As well ask if the world was round when every one still thought it was flat.

Wheat for 1919 will harvest to the tune of 795,000,000 bushels. That is a meagre 27,000,000 bushels under the average for the years 1914-18. It is more than enough to supply every domestic want. But listen to the corn forecast; 3,003,000,000 bushels, a full 240,000,000 above the 1914-18 average. And more corn means more pork on the hoof.

Oats at 1,402,000,000 bushels are better than normal. A yield of 402,000,000 bushels of white potatoes contrasts encouragingly with an average of 382,000,000 bushels; sweet potatoes run up to 101,000,000 bushels, a full 26,000,000 bushels better than usual. The barley outlook is good. Rye runs far ahead of average. Flax is more plentiful than in the four year period 1914-18. The rice crop will be 19,000,000 bushels above normal. Tobacco promises a yield 30 per cent. above the average. The sugar beet forecast is for 8,900,000 tons, compared with a usual 6,050,000. Apples are 10,000,000 bushels above the average. Hay is also better than usual. Cotton, which looked bad enough a few months ago promises a yield of 12,500,000 bales, which compares with a four year average of 12,400,000 bales.

The remarkable prospective yields, which are taken from the August report of the Department of Agriculture, are still more impressive when considered in connection with the acreage under seed. Of the 20 crops treated in the report, the acreage planted is 339,127,000 or 19,500,000 less than a year ago. The reduction in acreage was caused by the high price of seed, labor shortage and delays in transportation of machinery and fertilizers. But the farmer kept a steadfast gaze on the goal of increased production. While others talked and agitated condemning everything from the weather to the Government, the farmer remained a stanch exponent of the enduring possibilities of honest work.

Dinner pails will be well filled this coming winter if the railway worker and the operating executive, the industrial laborer and his boss, the clerk, and the banker follow the sound doctrine of work so practically and encouragingly exemplified in the farmer's bumper crops.

U. S. FLAG ON HALF OF CARGO CARRIERS

More than half the vessels entering and leaving American ports to trade with other nations are under the American flag, it was announced yesterday by the United States Shipping Board in making public a survey for the first six months of 1920.

The restoration of the American flag on the seven seas has proceeded rapidly the last year. This is shown by the fact that in 1919 only 42 per cent. of the net tonnage clearing in export trade was American and only 51 per cent. entering in import trade.

Based on the deadweight tonnage in the first six months of this year, 57.8 of total tonnage in export trade and 61 per cent. in import trade was American.

In all 15,558 vessels of 86,931,700 deadweight tons entered and cleared American ports during the first half of 1920, carrying 37,398,184 long tons of cargo. Of this total 9,550 vessels, aggregating 51,534,620 deadweight tons, which carried 22,724,217 long tons of cargo, were under American registry.

PASTOR SHOCKED AT HIGH JINKS' IN COTTAGE COLONY

Trenton, Aug. 17.—Consternation reigns at the popular bungalow colony at Washington's Crossing, just above Trenton for Rev. Frederick Kopfman pastor of the Titusville Methodist church, nearby, has called upon the Lopewell Township Committee to end what he terms "public disgrace and pernicious immoral practices."

Conditions as the pastor alleges he found them at the popular bungalow colony, made up of some of the finest families of Trenton, are not at all to his liking. According to Rev. Mr. Kopfman "shocking social practices" were found during the course of the investigation he claims to have made at the colony.

Among them he says was, "An atrociously bad tendency to go bungalow romancing in forbidden ways that amount almost to immoral vandalism. Here you find immodesty, irreverence and indecency manifested in refined clothes, spun about a display of immodest dress and stockingless legs a swimming, reminds me of the decadent days of Rome. They do about everything a young women would naturally do only in the privacy of her own bedroom, while the young men nearby are playing teh role of looking unsophisticated."

According to the minister, he has testimony which tells of young men reeling into wrong bungalows "at an hour when the Delaware River reflects no burning bright lights."

FRANCE OUT TO BORROW $147,000,000 MORE HERE

New York, Aug. 17.—While planning to pay her share of the Anglo-French loan of $500,000,000 when it matures October 15. France hopes to obtain another loan. Jean Parmentier, official representative of the French Ministry of Finance, declared in an unofficial statement on his arrival here today on the steamship La Lorraine to confer with American bankers.

M. Parmentier admitted he had come to negotiate with several American bankers, including representatives of J. P. Morgan and Company.

Maurice Casenave, French High Commissioner in the United States, who met M. Parmentier at the pier said that his countryman was interested in placing a new loan of approximately 147,000,000 and that his business here involved an understanding on the gold provisions of the clauses pertaining to repayments.

ed to fall within 24 hours. The loss of Novogeorgievsk disheartened the Polish commandant, who counted on holding this key position as the Reds were short of artillery. The fortress guns are now being turned against Alexandrov fortress, which seems sure to fall.

A Red cavalry detachment swam the Vistula, near Wyszogrod, and reached Sochaczew on the Lodz railway west of Warsaw today, but were unable to cut the line and were beaten off by the Poles, who had mounted machine guns on a railway flat car.

By entering Okunew, southwest of Radizymin, the Red forces reached a point only 12 miles from Warsaw.

Warsaw, Aug. 17.—Uninterrupted fighting is going on in the valley of the Bug from its source to its confluence with the Narew river. The great battle which has just begun along the river has been marked by appreciable advantage for the Poles. They have inflicted heavy losses on the enemy and won back important positions.

In Galicia the Poles, without pressure from the Bolsheviki have withdrawn to the line of the Bug.

The Bolshevik forces which had crossed the Bug between Hrubieszow and Wlowawa have been thrown back on the right bank. On the left wing the Poles, starting from Modlin, have made a successful attack in the direction of Mlawa. Thanks to this operation, the positions the Poles occupy in the fork of the Narew and Bug rivers, which constitute the key denses of Warsaw, are now better protected from a flank attack by the Bolshevik forces on the northwest.

LLOYD GEORGE TELLS LABOR ATTEMPTS TO DICTATE WILL BE MET WITH STERNNESS

London, Aug. 17.—Premier Lloyd George, replying to a question in the House of Commons today concerning Labor's ultimatum against war on Russia, declared that any attempt to dictate the policy of the Government or Parliament by industrial action struck at the root of the democratic constitution of the country and would be resisted by all the forces at the Government's disposal. Loud cheers greeted the Premier's reply.

Mr. Lloyd George asserted that the Government's policy concerning Russia and Poland differed in no way from the labor policy and said "this swing of the sledge hammer at the open door" by labor was intended only for display.

PONZI INVESTMENTS NO RETURNED MAY REACH $5,000,000

Boston, Aug. 17.—Five millions of dollars was set today as the probable amount of the public's money intrusted to Charles Ponzi and not returned by him before his quick-rich bubble was burst last week. Edwin L. Pride, the accountant who is undertaking the Federal audit of Ponzi's accounts, explained that his preliminary report of liabilities aggregating $7,000,000, was based on the face value of the unredeemed notes issued by Ponzi, which called for fifty per cent. profits in ninety days. The actual money represented in these liabilities, he said, would be between $4,500,000 and $5,000,000.

What proportion of the debts of the discredited financier are covered by his available assets was still in doubt Officials of the State and Federal jurisdictions, pursuing independent investigations, said they were unable to say how nearly correct Ponzi's statement that he has $4,000,000 in ready assets would prove to be.

STOWAWAYS ASPHYXIATED WHEN SHIP IS FUMIGATED

New York, Aug. 17.—Two stowaways aboard the French steamship Niagara, which arrived here today from Bordeaux, were found last night asphyxiated by fumes of disinfectants in one of the ship's ventilators, where they are believed to have hidden to escape detection when the liner entered port.

The ventilators were closed when the ship was fumigated at Quarantine, but the presence of the men was not discovered until after she had docked.

CLOUDBURST CAUSES BIG WASHOUT IN NEW ENGLAND

Greenfield, Mass., Aug. 17.—A cloudburst at 5.30 yesterday afternoon caused a washout 100 feet in length and 50 feet wide in the roadbed of the Connecticut River division of the Boston and Maine Railroad at East Northfield. Division officials say that it will take two days to restore the track.

Trains are being detoured between East Northfield and Greenfield on the Central Vermont Railway and the Fitchburg division of the Boston and Maine, by way of Miller's Falls.

NURSING SERVICE IS RAPIDLY EXPANDING

This American Red Cross Work Flourishing in Small Towns Throughout Country.

More than 37,000 graduate nurses have been enrolled in the American Red Cross to date and its department of nursing is daily increasing this enrollment.

The department of nursing has been authorized to maintain an adequate reserve of nurses for the army and navy. It will continue to supply the needs of the United States Public Health Service to which it has assigned more than 1,000 nurses in the last year.

It will assist in establishing proper nursing service in foreign countries where the American Red Cross has organized hospitals, dispensaries and schools for nurses. Courses in home hygiene and care of the sick have been started for thousands of women who have never received any education in this direction. Rural nursing which was in its infancy a short while ago has been put ahead at least a decade through the work of the department of nursing and local Red Cross chapters.

Public health nursing has been extended to many rural communities and now flourishes actively in hundreds of small towns and counties. Nearly a thousand efficient nurses have already been assigned to this kind of work.

The department of nursing is uniting with other organizations in a year's campaign in recruiting nurses for training schools, in educating the general public as to standards of nursing education and in showing communities their responsibility toward schools of nursing. It will endeavor to meet all these needs as well as to continue the enrollment of dietitians who will be utilized as instructors in home dietetics, in developing nutritional clinics, and in supplying dietitians for the United States Public Health Service and the civilian hospitals.

The Nursing Service will continue to offer to women and young girls the opportunity of securing instruction in home hygiene and care of the sick in every community in the country. This instruction has not only laid the foundation for public health but in some places has given impetus to the establishment of hospitals and community school houses.

"As a community profits by the work of the nurse," says Miss Clara D. Noyes, director of the department of nursing, "it is logical that the community should be aroused to its responsibility. The American Red Cross stands ready to help in a general campaign of recruiting and must have the support, sympathy and understanding of the medical profession as well as the intelligent co-operation of the people at large."

HOME SERVICE FOR EVERYBODY IN NEED

Do you know what the present day Home Service of the American Red Cross is?

Many people do not know that, besides completing the work for ex-service men, especially the disabled, it provides the same neighborly service to families in general that it formerly gave families of soldiers, sailors and marines.

"Home Service covers a wide and varied field," says Frederick C. Munroe, general manager of the American Red Cross. "It gives aid to families in solving such problems as budget planning, marketing, tiding over times of financial stress, keeping children in school, helping crippled children, widowed and deserted mothers, children backward in school and children in conflict with the laws. It renders service to the homeless and transient, to the illiterate, to tenement dwellers, to the unemployed, and gives friendly assistance and advice to foreign speaking groups."

In addition to helping families in the solution of their own problems, Home Service helps in strengthening the weak spots in the social life of communities. It joins hands with others to make communities safer, healthier and happier.

Organizing action along lines in which the community is already interested is one of the objects of Home Service. It has established community meetings, patriotic celebrations, pageants and picnics. Rest rooms, recreation facilities, play supervisors and moving pictures have been provided. Through Home Service other agencies are influenced to bring about improved commercial amusements and better school facilities and to promote traveling libraries as well as to secure county agricultural and home demonstration agents.

If you need assistance at any time, go to the secretary of the nearest Red Cross chapter and describe the situation. Your confidence will be sacredly respected and every possible effort will be made to aid you.

American Red Cross Roll Call.

The Fourth Annual Roll Call of the American Red Cross will be held this year from Armistice Day, November 11, to Thanksgiving Day, November 25, inclusive. During this period the men and women of the United States will pay their annual dues and renew their membership.

FIND DISPROVES CRANK'S STORY

Philadelphia, Pa., Aug. 17.—A memorandum showing the purchase of $7,000 worth of bonds was found today by George Gibson, a Philadelphia detective, at the New Grena farm house of Auguste Pasquale, "the crank".

According to the police, the discovery of the memoranda clinches the theory that the kidnapping was a "one-man job" and that Pasquale was the only one who ever received any part of the $12,000 ransom money.

It is now believed that Pasquale fearing that he might be trapped, hid the bonds either in his New Gretna farm house or buried them in some section of his farm land.

"The cranks" story of dividing the $12,000 ransom money with his pal, "Joe" and "Joe's wife" who, Pasquale insists were real kidnappers, fades into nothingness like the hundreds of other false statements he has made. The police, until Gibson's discovery were led to believe that some other person, probably a woman, assisted in the kidnaping and was supposed to be now caring for the child.

That belief was held in view of the fact that only $4,000 or $5,000 of the $12,000 could be accounted for.

Their fears now are that "the crank" has done away with the missing child.

PLUMB DECLARES HIS LEAGUE IS GAINING

Wash., Aug. 17.—Despite that the Esch-Cummins transportation act appears to have definitely directed the nation along a course of private control and operation of the railroads, the "Plumb planners" are not dead. Not disheartened in the least, the creators of the plan and the leaders in the propaganda which has furthered it, are driving forward convinced that ultimately they will be successful.

Glenn E. Plumb, creator of the idea and now one of the directing influences of the Plumb Plan League, today reviewed some of the prospects of the league and the idea and set forth some of the plans of those behind it.

BRITISH WOULD PERMIT MANNIX'S MOTHER TO VISIT HIM

London, Aug. 17.—Speaking in the House of Commons tonight Premier Lloyd George declared the Government was willing to arrange for Archbishop Mannix's mother to come from Ireland to visit her son in England.

Archbishop Manniix had planned to go to Ireland to visit his mother, but was prevented by the Government because of his alleged Sinn Fein inclinations.

ASK JAILER TO BAN WOMEN PRISONERS' SMOKING; WON'T

Chicago, Aug. 17.—A delegation of what he termed "Chicago women reformers" waited on Frank Lee, Cook County jailer, today and commanded he prohibit the smoking of cigarettes by women prisoners.

"I told them the laws were equal for men and women and that I could not see why I should interfere," Lee said, after the conference.

There are at least fifty women in Cook county jail. More than a score of these smoke in their cells, it was reported.

NAGASAKI, JAPAN

Leaving Yokohama for Nagasaki is always a very important incident in the lives of our navalmen who are doing duty on the China Station, generally termed the Far Eastern or Oriental Station by our sailors. To reach Nagasaki the quickest way takes our vessels through the Inland Sea of Japan, supposedly a stretch of the most beautiful scenery in the world. Only men who have been fortunate enough to make this trip can tell of fits grandeur, the beautiful green islands and the crystal-like waters, the picturesque fishing smacks, the gaily decorated villages and sometimes when passing near the shore, as is often the case through the narrow straits, the strange dress of the people may be plainly seen.

There is one feature about Nagasaki dear to the sailormen—here they never have to coal ship. This work is done by the Japanese—both men and women—who accomplish the task by aid of small baskets. They receive about 50 sen a day (25 cents American money) and as the women are usually better workers they get the same pay as the men.

The city of Nagasaki is located in the extreme southern part of Japan, the land of Nippon, and has a population somewhat over 200,000; it is the first port of entry for ships coming from the south or west, and lies at the head of a beautiful inlet some three miles long which forms a splendid anchorage.

On the north side of the channel by which the harbor is entered there stands a high cliff called Takaboka which under the name of Pappenberg, has long been rendered famous by a tradition that thousands of Christians were precipitated from it in the 17th century because they refused to trample on the cross. It has been proved conclusively that the legend was untrue.

Nagasaki is one of the most beautiful ports in Japan and is replete with many interesting sights which the tourist or navalman may spend weeks in seeing. Beautiful parks and driveways, the colorful dress of the kiddies and the curious symbolic shrines, pictured above, always hold the attention of the visitor. The country is especially beautiful in the Spring of the year—cherry blossom time—and we see above several bluejackets admiring a realistic view in one of the parks of Nagasaki.

September Pictorial Review

There are eight striking stories that make the September issue of especial interest. In this issue the "Twelvetrees Kiddies" have the Ouija-itis, a pictured jingle that always appeals to the little folks.

In the fashion pages Autumn begins to show her influence in the new styles and one of the prominent features is the extensive use of embroidery on the one-piece dress. Long graceful lines seem to be the rule for the coming season.

INGOMAR THEATRE

Of course you've heard of Houdini, the famous handcuff king, self liberator, and stunt artist extraordinary. Probably you've seen his marvelous stunts in vaudeville. He's even more remarkable as a motion picture star.

Houdini is coming to the Ingomar Theatre today in a picture which, we are sure, has never been equalled for real thrills. It's called "Terror Island."

Houdini performs some feats under water that will make you gasp. He is locked into a safe and, thrown into the sea, escapes. He battles on the floor of the ocean with a professional diver. And that's not nearly all.

"Terror Island" is not just breath taking thrills. There's a delightful love story running through it, with pretty Lila Lee as the heroine.

RICHMOND THEATRE

A dramatic angle of life, presented in real Selznick fashion, is "The Point of View," starring fascinating Elaine Hammerstein. In this tense play, Miss Hammerstein brings to the screen at the Richmond Theatre today the story of a girl who sacrifices her happiness in order to send her brother abroad where he may study for the concert stage.

The happiness she sacrifices, however, proves that visionary, in the end her heart turns to the moneyed man she has wed and she realizes that it was from the very beginning, all in the point of view.

The plot gives Miss Hammerstein ample opportunities to display not only her girlish attractiveness on the screen, but the superb emotional art which is fast winning her a place in the van of film stars. She is supported by a cast of exceptional players.

BELIEVES 'GREAT COMMONER' WILL SUPPORT GOV. COX

New York, Aug. 16.—George White, chairman of the Democratic National Committee, today formally announced that he believed William Jennings Bryan would whole heartedly support Governor Cox and the Democratic ticket during the coming campaign.

"My reason for saying this is not founded on any logical reasoning, but because I have received a hunch that we may expect his cooperation," said Mr. White.

Secretary of War Baker announced today that he would stump for Cox and Roosevelt.

William Gibbs McAdoo sent a telegram to Seth Walker, Speaker of the Tennessee House of Representatives, urging ratification of suffrage.
